Introduction

As **Indiana Members Credit Union** completes its system conversion, you will need to modify your Quicken settings to ensure the smooth transition of your data. To complete these instructions, you will need your login credentials for Indiana Members Credit Union's online banking solution, NetTeller.

It is important that you perform the following instructions exactly as described and in the order presented. If you do not, your service may stop functioning properly. This conversion should take 15–30 minutes.

NOTE: This update is time sensitive and can be completed on or after 3/3/2014.

This detour symbol indicates section instructions that are using bill pay in Quicken only. If you do not use Quicken to make online bill payments, you can skip these sections or steps.
